## Add a side release buckle to your prong collar!

Thank you for purchasing a side release buckle kit to make your prong collar easier to use. The following directions will help you add the side release buckle to your prong collar.

### ***Equipment needed:***

Pliers

Prong collar

Buckle adapter kit

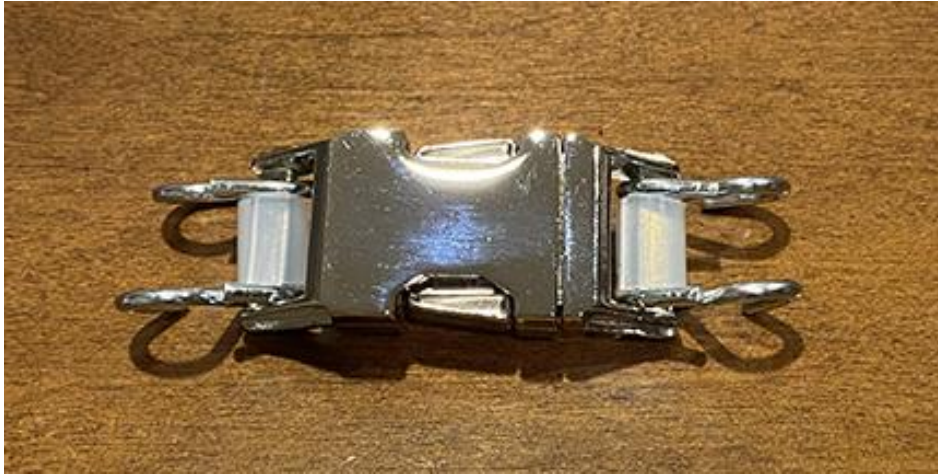

**Step 1:** Get all of your supplies together. Parts included for your prong collar modification include the side release buckle with attaching hardware (4 S hooks). Buckles are different sizes for different sized prong collars. Buckle appearance may vary from what is shown in photo.

**Step 2:** Attach S hooks to buckle and close with pliers. Two S hooks on each side of buckle, one on either end of plastic spacer. Do not close the other side of the S hooks yet.

It will look like this when finished -

**Step 3:** Open prong collar as shown -

**Step 4:** Remove end link from collar -

**Step 5:** Attach S hooks to collar and chain plate as shown below. Then close the S hooks with pliers.

**Your collar is now ready to use with the easy on and off buckle!**

If you have any questions about your prong collar or the buckle assembly, please contact me at [leashesbydesign@me.com](mailto:leashesbydesign@me.com).

Thank you for your purchase!
